Ayelen Llampa

Full Stack Web Developer • Front End Developer

Proactive frontend developer with experience building individual and group projects seeking full-time employment where my skill can be utilized.
I have knowledge of GIT, data structure, algorithms, and frameworks like Bootstrap and Tailwind CSS. I have experience in both Front End and Back End development. I excel in Front End using JavaScript, Typescript, React, Redux, Redux Toolkit, frameworks, and pure CSS, complementing prototypes design in Figma or Canva.
